	Maria Suarez

SITE CONDITIONS

The air temperature each day was 75 –80 degrees F. The depth of the site 20 feet. Winds were from the SSE at 5–10 knots.

Water temperature at the bottom was 86 degrees, and the current was minor–to–moderate.

Bottom terrain was sand, coral, and sea grass, easily disturbed.

Visibility varied from 50 – 100 feet; generally good.

BASELINE DESCRIPTION

The baseline was extended from 0 to 40 meters in length, with all artifacts on the right (north) side of the baseline.

Baseline delineated with clips from 0 to 40 meters, in increments of 5 meters.
